

## AMENDMENTS TO THE CLAIMS

Please amend Claim 1 as follows.

### LISTING OF CLAIMS

What is claimed is:

RECEIVED  
JUN 02 2003  
GROUP 3600

- Sub d1*
1. (currently amended) A damper comprising:
- a closed pressure tube having an inner wall which forms a sealed working chamber;
  - a piston disposed within said working chamber, said piston slidingly engaging said pressure tube to divide a first portion of said working chamber into an upper working chamber and a lower working chamber;
  - a first flow path extending through said piston to provide communication between said upper working chamber and said lower working chamber;
  - a valve body disposed within said working chamber to define a fluid chamber located in a second portion of said working chamber said valve body being fixedly secured to said pressure tube; and
  - a second flow path extending through said valve body to provide communication between said lower working chamber and said fluid chamber, said second fluid flow path being an a continuously open flow path.
- C1*

2-5. (cancelled)

d1  
cont

6. (original) The damper according to Claim 1, further comprising a compression valve assembly attached to said piston, said compression valve assembly prohibiting fluid flow from said upper working chamber to said lower working chamber.

7. (original) The damper according to Claim 6, further comprising an extension valve assembly attached to said piston, said extension valve assembly prohibiting fluid flow from said lower working chamber to said upper working chamber.

8. (withdrawn)

9-27. (cancelled)
